Melbourne's Original Grip Van

With a background in hospitality, landscaping and both domestic & commercial construction, Peter began gripping in the mid 1990's. Under the expert guidance of key grips Robbie Hansford, Tony Hall and David Cross (to name but a few), Peter was soon established as an accomplished assistant.

Since 2001 Peter has operated out of a van and has spent the last 15 years refining this system to what it is today - a compact strike unit able to get in and out with a minimum of fuss; get the job done while keeping production values & crew safety as priorities. A keen surfer, Peter is fit, has an eye for detail, a 'can-do' attitude and a happy on-set manner.
