

R TURTON FILM AND TELEVISION SERVICES PTY LTD

LIGHTING AND GRIP EQUIPMENT LIST

The following list includes both **LIGHTING** and **GRIP** equipment that is available.

Two (2) Iveco vans (choice of either long or medium wheel-base) are available to transport equipment to and from location. Both vans are fitted with trolleys and tail-lifts to facilitate ease of movement of equipment in and out of the vehicles.

Both vans are racked to be able to service either a **combination Grip/Gaffer** package or as a sole discipline **Grip OR Gaffer** package. Service and gear can be provided as a combination of the two disciplines or as single disciplines with separate Key personnel per van depending on the scale of the job and the requirements of Directors, DOPs and Production companies.

The attached gear list is tabled as **LIGHTING EQUIPMENT** on pages 1 to 3 and **GRIPPING EQUIPMENT** on pages 4 to 6.

e. richardturton@bigpond.com

There are two Iveco Daily Vans available, both are racked out and are fitted with hydraulic tail lifts and custom built trolleys. A comprehensive selection of gripping equipment is also available from the Operator and can be combined with the lighting equipment in a single van or as a stand alone unit.
