COVID COMPLIANCE MANAGER TESTIMONIALS

Brian Yonck NBCUniversal

Thank you Pam. It's quite an accomplishment to keep the crew as safe and covid-free as you and your team did. Miraculous even. Your hard work and diligence are greatly appreciated. Thanks again for being a key reason why this show went as smoothly as it did.

George Engel NBCUniversal

Thank you Pam and thank your team as well. You all did an excellent job and were a pleasure to work with.

Michael Gracey – Director

Thank you Pam for everything you've given throughout this production. Your dedication and diligence is the only reason why we made it through these last few months between our changing locations, concerts and crowds. We have been so lucky to have you helming what is undoubtedly an unforgiving and ever-adjusting contagion. While I know there are elements of keeping safe that are naturally unpopular, you handled the requirements with consistency and humour. It was a safe set with you there and it's a testament to your coordination that we all lasted so long unscathed and not having to shut down production at all. Thank you for your efforts.
