I am a highly experienced production manager, having worked on a large range of commercials from multiple day shoots with complex logistical requirements for international agencies, to small modest budget shoots.

I've worked with motion control, helicopters, drones, russian arms, tracking vehicles & low loaders. I've done flash cars, smashed cars, deconstructed cars, catapults on city buildings, falling chandeliers, animals (dogs, cats, ducks, butterflies, cows painted pink) children, in the city, in the country and in the rain.
