I have a vast amount of experience in the wonderful world of film and television and have worked across many genres including drama, documentary, news & current affairs, comedy, reality, lifestyle, television commercials and corporate videos.

George Patterson's and ABC TV were my starting blocks in an all-consuming career full of great opportunities and experiences. My skill set traverses a number of roles in the industry so I have had the pleasure of working on award winning dramas, ground breaking documentaries and on productions big and small.

A selection of my work history is listed below under the following categories:
