ADDITIONAL INFO

Furthermore, please make contact if you require my assistance in creating a schedule document from your script. This working document will not only map out the most cost-effective way to film, but will detail each scene in greater depth. A cross plot of all categories is created including cast & crew contract dates, makeup & costume breakdowns and location requirements. Additionally, anything else of significance can be easily tracked and reported.

Along with forecasting your budget needs, this document will allow you to approach and obtain any necessary government funding.
