

Fluid Motion Brief Company History

Fluid Motion DOP, Dale Henderson has over 28 years' experience within the Television & Film industry behind the lens. Ranging from news to current affairs, TVC's, documentaries, drama series, reality programs to Steadicam operations on feature films.

Dale's ambition to create that unobtainable, spectacular shot, led him to become the first broadcast cameraman within Australia, to introduce the exciting new drone camera technology into the television industry in 2012. Dale turned his 34 years experience flying remote control aircraft into a commercial business. With a wealth of knowledge within the broadcast/film industry, Dale's company Fluid Motion rapidly became the producers/DOP's choice of aerial platform. Fluid Motion only utilizes the services of the best drone pilots, which have outstanding CASA qualifications and extensive hands on experience in all environments. Each pilot has many years experience in flying RC. The credentials of our pilots include flying Airbus A380's, Super Puma Helicopters and RC 3D aerobatics.

For more information on Fluid Motion and spectacular show reels go to www.fluidmotionfilm.com

CASA Licensing and Public Liability Insurance

Dale Henderson has full RPAS licensing requirements, an Operators Certificate (OC) from the Civil Aviation Safety Authority (CASA) to operate a Remotely Piloted Aircraft System (RPAS) for commercial use. This is in addition to a RPAS Controllers Certificate's which all pilots must have in order to operate drones. There are strict CASA guidelines that must be adhered to. Fluid Motion has an outstanding safety record and as a result, has CASA approved night flying operations and an Australian Aerial Approval to fly within any unmanned aerodromes. Fluid Motion has an extensive public liability policy.
