I have worked in camera department for over 12 years now. I started my career as a camera trainee on Power Rangers TV series shot in NZ on 16 and 35mm and worked my way up to focus pulling through a diverse range of projects covering features, TV series, commercials, music videos and documentaries. I have experience with a broad spectrum of digital and film cameras and am up to date with all current camera systems. I am extremely hard working and reliable, I stay calm under pressure and bring energy, enthusiasm and a good sense of humour to my work. I feel very privileged to work in this creative and crazy business with so many talented and inspiring individuals and look forward to future challenges.
