SUMMARY

In addition to my 20-year career as a nurse in various public hospitals and private institutions, a passion for film has led me to work as an On-Set Nurse for films, documentaries and TV Commercials in the UK, Australia and Singapore. Responsible for co-ordinating the provision of on-set medical facilities, I have also assisted in casting, sourcing crew, equipment and general production management on smaller productions. Whilst working as a nurse in Singapore I undertook a short film course and went on to complete a project entitled *Belongings*, a short film about Indigenous artists in Utopia in the Northern Territory for The Australian High Commission. I am a strong communicator in both written and verbal form, organised and punctual. In Singapore, the projects included high action and stunt sequences in remote and difficult environments and my training as an intensive care nurse enabled me to prioritise effectively in these high-pressure situations. My medical experience is varied and in recent years I have worked in both the Emergency Department and Intensive Care Unit at The Alfred Hospital.

QUALIFICATIONS

Bachelor of Applied Science (Nursing) - Latrobe University (1999)
