ABOUT ME

For the past 25 years, I have worked extensively in Australia and internationally as both a 1st AD and a Director.

I've been involved in hundreds of shoots, ranging from multi million dollar worldwide extravaganzas to low budget shit fights and everything in between.

I'm organized and calm with an easygoing nature that will help get you through your shoot on time and with a bit of a laugh along the way.

EXPERIENCE

- **Scheduling** – Having scheduled hundreds of TVC's, I've learnt that the best schedules not only navigate the quickest path through a shot list, but do so in a way that make the Director confident that they are getting what they need to make a great spot.
- **Shooting** – I have extensive knowledge of cameras, lenses, lighting and equipment.
- **Post Production** – I have a comprehensive understanding of editing, grading, online and CG.
- **Travel** - Having worked all over the world, I've learnt that not all film industries are the same! If you need to shoot overseas I can help guide you in the right direction.
