I originally got involved within the film industry following the pandemic lockdowns when there was a shortage of crew. Here, I found real enjoyment working within a new team dynamic and grew a fond liking to the industry.

Since then, I have acquired a broad experience through multiple supporting roles, ranging from Covid Officer, Catering and Unit. I take pride in my loyalty to those I work with, my good attitude and willingness to always go the extra mile to supply the best service I can. I am keen to further improve my knowledge within the industry.
