About

Mikael Brain is a Melbourne-based cinematographer with over a decade of local and international experience, having worked throughout Australia and Europe during much of the 2010s. Whilst based in Germany, he worked with a range of clients across Europe, the Middle East and South America, and maintains an address in Berlin. He is a full member of the Australian Cinematographers Society.

Mikael's work extends from promotional material and TVCs to corporates, narrative, documentaries and music videos. The list below represents a tiny selection of work from the last decade, mostly available for viewing on his website, and was largely filmed on the Arri Alexa Mini and Red Epic & Monstro digital cinema cameras.
