Qualifications:

Bachelor of Creative Arts - University of Melbourne
Heavy Rigid Truck License

I have worked extensively on television commercials (TVC's), TV series and both big and small budget feature films in a variety of roles. I have also owned and operated Unit Base Pty Ltd a Unit business catering for up to 80 people. In 2020 and 2021 I took a sabbatical from the film industry to work in mental health which is a passion of mine.

As a Unit Manager I've been in charge of logistics for a film crew on location. The main skills involved are planning, organizing, negotiating and executing the setting up of a base of operations for a film crew, including shelter, toilets and other amenities and then servicing the cast, crew and clients with friendly hospitality throughout the shoot.

Below is a small sample of shoots I've worked on, full listing available on request. Please don't hesitate to contact me, or my referees, if you have any questions.
