Off Set Film Services

Unit Manager

Working in the Film and Television industry for over 15 years I have had the pleasure of experiencing the largest, right down to the smallest productions. This has given me the opportunity to gain a large range of knowledge to

deal with any situation. Mainly employed in the unit department I have had the privilege to be able to work in a role where I get to interact with the entire crew. I'm lucky enough to be able to have a position I thoroughly enjoy.

Off Set Film Services spawned from my love of unit and is currently equipped to facilitate up to 200 people at a moments notice. Equipped with a HR truck and a LWB van we are ready to cover photo shoots, commercials, TV series or feature films of all sizes. Over time I have built a working relationship with truck facility owners (Make Up, Wardrobe & Green Room) and can arrange any vehicles required for a production. I have many experienced and skilled unit assistants to accompany

me to provide support with any and all of your production needs.

The unit truck is set up to seat 100 crew undercover with a built in 46 KVA generator. A double group head coffee machine trolley for unit base and tea & coffee trolley for set, the crew will be very comfortable.

The unit van is set up to seat 50 crew undercover with a built in 6.5 KVA generator. A single group head coffee machine trolley for unit base and tea & coffee trolley for set, the crew will be very comfortable.

# Unit Van
