currently

I am a Production Manager working in the Film and Television Industry. I was successfully granted my UK 2 Year Working VISA, and was due to fly at the end of March 2020. I have postponed my travel plans for the time being due to the COVID-19 pandemic.

I am seeking work in Scripted Film & TV as a Production Manager or Production Coordinator. In between long form projects I work as a Production Manager in Commercials.

about me

I thoroughly enjoy the work that I do.

I am organised, precise and dedicated. I am drawn to production because I enjoy the never-ending jigsaw and all round juggling act that is filmmaking.

I have worked consistently in Commercials and Short Films as a Production Manager / Production Coordinator since I graduated Swinburne University in November 2010. I was the in-house Production Manager at Exit Films from 2012-2015, where my experience and skills included estimating, managing and actualising budgets; scheduling; casting and cast coordinating; organising local and international travel; office and staff management; permitting the employment of children and completing call sheets. I have experience in high budget, complex projects, as well as low budget, skeleton crew shoots.

My focus the last 5 years has been to increase my skillset in Scripted Film & Television. In March 2015, I worked on the feature film LION (See Saw Films/Aquarius) as the Assistant Production Coordinator, where I was able to adapt my skills, experience and work processes to suit the feature film form. I now have experience in Scripted Film & Television as Line Producer, Production Coordinator, Assistant Production Coordinator, Art Department Coordinator, Travel Coordinator and Production Secretary. My diverse experience in different roles, departments and projects has given me a broader understanding of how each department operates and what they require to facilitate a successful team workflow and therefore a more successful and rewarding result.

I have just completed my first Drama Line Producing role for FremantleMedia's mini-series With Intent. My most recent Production Coordinator experience has been on How To Stay Married (Princess Pictures) and Neighbours (FremantleMedia); my most recent Art Department Coordinator experience has been on Nitram (G-Troit Films); and my most recent Assistant Production Coordinator experience has been on The Leftovers Season 3 (HBO).

My favourite part of working in production (apart from a good looking spreadsheet!) is the crew. I love teamwork. I believe I have a fun and respectful relationship with the people that I work with, and I try to bring a positive, enthusiastic attitude to every project I work on.

In 2019 I mainly worked on commercials due to a few exciting family events (thanks very much sister for getting married which prevented me to going to India for a shoot!) and in preparation for my planned move overseas.

I am very passionate about working in both worlds: Scripted Film/Television and Commercials. I am hoping to concentrate on Scripted in 2021, and more specifically gaining more experience in the Production Manager role.

Thanks for listening to me ramble on!
Jaime Gillespie
