TOM JOHNSTON

I'm happy to do any task in order to help a production run smoothly and/or a crewmates job easier. I enjoy stepping into new roles and new responsibilities.

I enjoy a fast paced work environment and believe my best attributes are my organisational skills, level headedness, readiness for the unpredictability of productions and a general friendly attitude.

My goal is to work in screenwriting and completed written 4 feature scripts, 2 pilot scripts and numerous shorts. While I work prominently in production, I'm looking to move into the writer's room in a reader, note taker, coverage, or assistant role. However, long term, I want to be a staff writer. My related film experience is below;
