# ABOUT US

---

With 2 well-appointed mobile kitchens, a prep kitchen and delivery vehicles, our talented team, lead by Ed, supply great meals to film and TV.

Cooking everything fresh, onsite daily, with a strong focus on flavour & nutrition to keep your crew both happy & healthy.

Both trucks are equipped with on-board cool rooms, dishwashers, generators and are fully certified and insured for compliance and maximum flexibility.

We pride ourselves on using free range eggs & meat from our partner, Grange Meat Company who only source ethically produced meat from Victoria with stringent farming practices, that guide production from paddock to plate.

All meat & products are free from hormone growth promoters (HGP) & are non-GMO.

Of course, Vegetarian, Vegan, Dairy and Gluten-Free dishes are on the menu also each day and we easily cope with all other special dietary requirements of your cast & crew at no extra cost.

With over 30 years experience in fine dining restaurants & 15 years in the film industry, we know that we can supply all that you need for your next production while staying as sustainable as possible.

From a Hearty breakfast, to a great Craft snack and anything in-between, Ed's Kitchen will have you covered.

Email us for a current sample menu and pricing.
