PROFILE

After completing my certificate in Film and Television at the New Zealand Film School, I quickly entered the industry following my passion in Production. I have learnt that my skills and enjoyment lie predominantly in the organisation and logistics of filmmaking.

Since entering the industry I have spent the majority of my time working in Travel and Accommodation. The pandemic certainly created a challenging time for this department and I have learnt how best to manage risk and ensure crew are well taken care of and informed when travelling. I've continued to further my career in Production working as a Coordinator and learning how to effectively manage a team. I work well under pressure and am able to make quick decisions when required. I love the fast pace of film and television and can't wait to move my career over to Australia.
