With over 30 years of dedicated experience as a Key Grip and Dolly Grip in the film industry across New Zealand and Australia, I bring a wealth of knowledge and expertise to every project. I am confident in all aspects of gripping and can collaborate with any team or work independently as needed. I believe that the pursuit of knowledge is a lifelong journey, and I continuously strive to enhance my skills and broaden my understanding of the craft.

Equipped with a well-maintained mid-sized grip truck, I am prepared for a wide range of projects, from independent films to larger commercial productions. My grip truck is outfitted with a comprehensive selection of tools and gear necessary for any scenario. In addition, I have direct access to an extensive variety of specialized equipment, including remote heads, arm cars, and rigging solutions, ensuring that I can always deliver on project demands and maintain the highest production standards.
