## Location Assistant

My diverse professional background has equipped me with a versatile skillset which I have honed and specialized in the dynamic world of film and television locations.

I offer a unique blend of logistical and creative expertise. I bring a strong work ethic, empathetic leadership and a commitment to collaboration, believing that a team's strength lies in its ability to work together effectively. I excel in managing conflict, and de-escalating stress. I'm calm in a crisis, and open and honest communicator, comfortable at a fast pace, and good at keeping people together when things are going pear-shaped.

Over the years, I have transitioned seamlessly into multiple location teams where I have gained invaluable experience in understanding the intricacies of crew dynamics and the efficient functioning of sets.

A passion I bring to all my locations teams is to do my best to ensure a community is involved in the filming experience and fully understands the process. I am community focused and aim to achieve the best outcome for all.
