

## Jimmy Mitchell CV

I'm a 29-year-old media production graduate with seven years of hands-on experience in the film and television industry. I'm currently seeking opportunities where I can bring my energy, professionalism, and strong work ethic - especially in roles as an Assistant Director, where my passion truly lies. Over the years, I've had the chance to work across multiple departments, including set building and the art department, which has given me a well-rounded understanding of production. I'm a collaborative, easy-going team player who thrives in high-pressure environments and genuinely loves being part of the creative process.
